CLAYTON SCHNEIDER - Software Engineer

(203) 491-8241 • schneiderc2016@gmail.com • claytonschneider.dev

WORK EXPERIENCE

Product Support Engineer | Tiny (TinyMCE); Remote | Sep 2024 – Present

- Resolved over 3,700 tickets for a JavaScript-based rich text editor used by external engineering teams in high-traffic applications, serving as the primary technical liaison.
- Debugged customer implementations and reproduced reported issues by analyzing JavaScript configuration, DOM behavior, network traces, and runtime errors to isolate minimal test cases for the core engineering team.
- Nominated as the 2025 Most Valuable Team Member throughout the company.

Software Engineer | Simply Sprout; Boston, MA | Aug 2022 – Aug 2024

- Founded and operated a client-facing software consultancy, delivering 15+ production websites from concept through deployment.
- Architected performant headless marketing sites using Astro.js and TypeScript, integrating CMS platforms (WordPress, Sanity, Prismic) for independent client content management.
- Optimized performance, accessibility, and SEO, guaranteeing 90+ Lighthouse scores across all deployed sites.
- Managed full application deployment lifecycle using Cloudflare Pages, Workers, and Domains.

Software Developer | Slooh; Washington, CT | Jul 2021 – Aug 2022

- Reduced manual reporting overhead by automating recurring analytics workflows with Python-based data pipelines for the leadership team.
- Designed and executed SQL queries that served as the foundation of weekly customer usage reports and implemented cohort analysis to track user conversion and retention trends.

EDUCATION

GEORGIA INSTITUTE OF TECHNOLOGY

| M.S. in Computer Science (Specialization in Computing Systems) | 2024 – 2026

UNIVERSITY OF CONNECTICUT

| B.S. in Management and Engineering for Manufacturing | 2016 – 2020

- Magna Cum Laude, GPA: 3.89/4.0

PROJECTS

MapReduce Data Processing Framework - C++, gRPC

- Implemented the MapReduce data processing framework based on the 2004 Google paper.

Custom GETFILE Protocol - C, Systems Programming

- Implemented a custom file transfer protocol over sockets.
- Developed multithreaded and shared-memory implementations.

Ebay Clone Auction Platform - Python, PostgreSQL

- Collaborated with team members to develop a multi-user auction platform, emulating the capabilities of eBay.

TECHNOLOGIES

Technologies: JavaScript/TypeScript, Python, C, SQL, Astro.js, React, Laravel, Next.js, PostgreSQL, MySQL, Linux, Cloudflare Pages/Workers, WordPress, Sanity
